GENERAL SAFETY INFORMATION

WARNING! Read and understand all instructions. Failure to follow all instructions listed below may result in electric shock, fire and/or serious personal injury.

SAVE THESE INSTRUCTIONS!

- ※ Prevent object and liquid entry. Never spill liquid of any kind on the video display unit. Liquid increases the risk of electrical shock and damage to the product.
- ※ The unit is not shock-resistant. Do not use Explorer Standard as a hammer and avoid high impact resultant from things such as dropping the unit from height
- ※ Do not immerse camera handle or monitor in water. Avoid moisture, and store product in a dry place. Such measures reduce the risk of electric shock and damage. **The lens and the tube are water resistant when the unit is fully assembled, but the monitor and handle are not.**
- ※ Do not use the camera if condensation forms inside the lens. Let the water evaporate before using again.
- ※ Turn off the system if it is not in use.
- ※ This product can only be completely disconnected from its power source by unplugging the power adapter.
- ※ Do not cut the DC power cable or provided with this product to fit with another power source.
- ※ Attention should be given to the environmental aspects of battery disposal.
- ※ Remove the batteries when cleaning the unit.
- ※ Remove the batteries before storing the unit for a long time.
- ※ When necessary, REPLACE ALL FOUR (4) BATTERIES in this unit with new ones, not one (1) or two (2) batteries at a time.
- ※ Use only the size and type of battery specified.
- ※ Be sure to install the battery with the correct polarity as indicated in the battery compartment.
- ※ Properly dispose of batteries. Exposure to high temperatures can cause batteries to explode, so do not dispose of in a fire. Place tape over the terminals to prevent direct contact with other objects.
- ※ Some countries have regulations concerning battery disposal. Please follow all applicable regulations.

WELCOME

Congratulations on your purchase of our inspection video camera with recordable color LCD monitor, the EXPLORER DELUXE. Please read the user manual carefully before using this product. These products are designed as a remote inspection device, capable of recording video/taking pictures. Appropriate for use in surveying pipes or other hard-to-reach places, equipment or furnishing installation, car repair, etc. Features include waterproof LED lens, real-time recording, and micro SD card storage.

FEATURES

- Allows for easy surveying of small, hard-to-reach places;
- Mini water-proof camera with 1m (3ft.) flexible extended tube;
- Increase visibility with 3xzoom capability;
- Manufactured and tested to IP67 waterproof standard;
- 3.5" TFT-LCD detachable/mountable monitor, built-in rechargeable Li-battery;
- Video recording capability, supports up to 32GB micro SD card;
- Adjustable brightness on lens-mounted LED light;
- Lightweight, handheld design, flexible and convenient to use.

PACKING LIST

Only for 8842AU

Hook x 1

Magnet x 1

Mirror x 1

Only for 8843AU

Magnet x 1

Mirror x 1

Rubber ring x 1

Note: 8842AU=GB8842+GB7316; 8843AU=GB8843+GB7316; 8846AU=GB8846+GB7316
8847AU=GB8847+GB7316; 8849AU=GB8849+GB7316

STRUCTURE

Camera

Flexible Tube Interface

Mini Waterproof
Lens

Flexible Tube

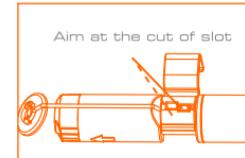

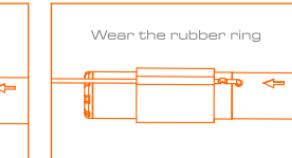

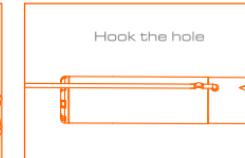

To Install Accessories

The three (3) included accessories (mirror, hook and magnet) are all attached to the camera in the same way as illustrated below:

For 8842AU

For 8843AU

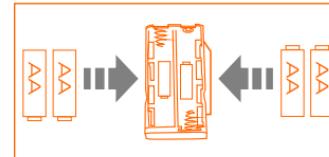

For 8842AU: to prepare accessory for installation, push down on stem-side of black interface while pulling away from adjacent side. This will open the base of the accessory. Next, align inside of stem-side to either threaded surface at the base of camera head. Tighten to secure the accessory in place.

INSTALLATION

To Install Batteries

(Dry your hands before installation or replacing batteries.)

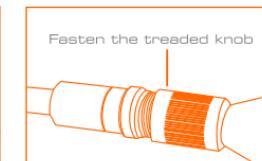

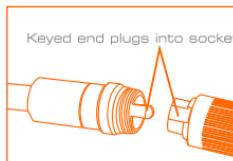

1. Remove the battery cover as illustrated below:

2. Remove battery compartment and insert four (4) AA batteries into their appropriate slots, with proper orientation, as indicated on the battery compartment.
3. Reinstall battery compartment and replace battery cover.

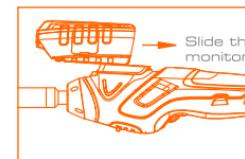

To Attach Flexible Tube with Handle

To connect the flexible tube camera with control handle, first make sure that the keyed end of the tube is aligned with the slot in the handle, then use slight force to push them together. Once properly aligned, twist the threaded knob clockwise until the connection is securely in place.

To Install Monitor for Wired Use

EXPLORER DELUXE supports wired use by connecting the monitor to the camera handle.

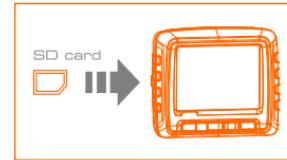

To Install Extension Tube

To connect the extension tube, first align the keyed end with the slot in the handle. Use slight force to push them together. Once properly aligned, twist the threaded knob clockwise until the connection is securely in place. Repeat this process to connect the other end of extension tube to flexible camera tube.

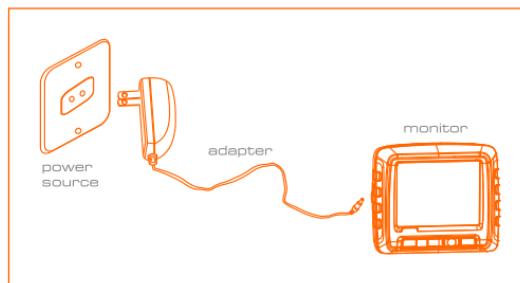

To Insert SD Card

After SD card is inserted into SD card slot successfully, an SD card  icon will appear on the LCD screen; otherwise, the 'no SD card'  icon will show.

To Connect Monitor Power

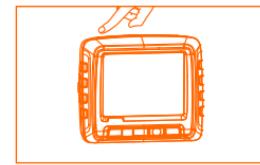

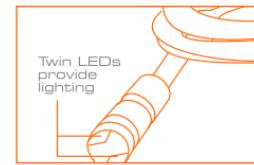

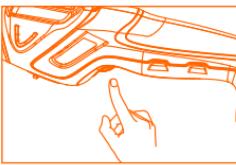

Connect the monitor to an appropriate (100-240V ~ 50/60Hz) power source with the provided adapter to charge and the charging icon  will flash on the LCD screen. Turned off, the charge without any prompt, but the monitor is charging.

OPERATION

Basic Operation

1. As you roll the power switch to turn on the camera, the power indicator on the camera handle will light. The rolling switch then acts as a dimmer for the twin LEDs that surround the camera on the end of the flexible tube.
2. Press and hold the  button on the top of the monitor for 2 seconds or until the picture from the lens is displayed on the monitor.

3. You can be real-time detection, recording or taking pictures, and other set operations.
Only for 8846AU: The lens and the detection of the best distance is 6 cm, If too close or too far can cause objects not clear.

Note:

* When in use, the tube should easily maneuver itself into position. Do not apply excessive force.

TIP!

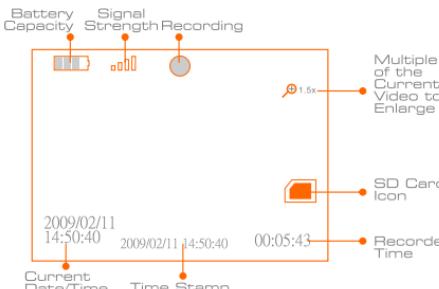

- * The flexible tube can be bent into numerous shapes that may help you explore areas you otherwise thought were impossible to see.
- * The accessories included with EXPLORER DELUXE can be used to retrieve small items like dropped rings or screws. (only for 8842AU, 8843AU)
